A BANG-UP FIGHT.

That's What the Maryland Contest Is, Says a Newspaper Man.

CORMAN STRUGGLING FOR LIFE. The Virginia Democratic Association of Washington Endorses His Efforts-North Carolina Republicans and McKinley.

WASHINGTON, D. C., October 26.-(Special.)—The campaign in Maryland has now reached the boiling stage, and every day is pregnant with political interest A well-known journalist, who has just returned from some newspaper and campaign work in that State, says: "There no disguising the fact that the greatest battle for years is on in Maryland. Mr. Quay made a right in Pennsylvania a few weeks ago, but he was fighting for a common, little party State chalrmanship, but Mr. Gorman is fighting for his life, and, from all I heard and saw, I would say that he will win.

"In the first place, there never should have been any fight against Senator Corman. He is not up for re-election, and, ordinarily, would have but little to do with the campaign. The Democrats of the State assembled in regular conven-tion and nominated Mr. John E. Hurst, tion and nominated Mr. John E. Hurst, who is the largest wholesale dry-goods merchant of Baltimore, and whose reputation is simply splendid in every single respect, but he happens to be for reassessment, and so the corporate interests were quickly arrayed against him, and Senator Gorman was selected as a blind, from behind which this agreemation of avarice and greed could gregation of avarice and greed could shoot down the Democratic forces, which stand for equality before the law, whether they be men of millions or artisans at the sawil.

'It's a bang-up fight," continued the "It's a bang-up light, continued the newspaper man, "and all Democrats ought to help Gorman now, for the party owes him gratitude for the wisdom of his counsels and the earnestness of his labor. It is very gratifying to his friends in the State to find his colleagues so in the State to find his colleagues so in the State to find his the Sena-tiron for Gorman, for men like Sena-tors Gray and Faulkner do not do things like campaigning without convictions. "The young men in Baltimore, like Henry E. Poske and Jerome Joyce, and 1000 others, are showing what young Democrats can do, and their help to the regular ticket cannot be overestimated. The Gorman leaders claim the State by The Gorman leaders claim the State by 10,000, but this may be an enthusiastic estimate, when it is taken into consideration that there will be an immensely increased Republican negro vote. GORMAN ENDORSED.

The Virginia Democratic Association of the District hold a very important meeting at their hall on New York avenue last night. There was a full attendance, and a good deal of business of more than ordinary political interest was Iransacted. Next to the campaign in Vir-ginia, the association regards that in Maryland as of paramount importance, and as an evidence of its sympathy for Senator Gorman and the Democratic State ticket, the following resolution, offered by Mr. J. A. Settle, was unani-

mously adopted; "Resolved, That the Virginia Dem cratic Association of the District of Co-imbia most heartily endorse the Demo-cratic State ticket of the State of Maryand, and commend the efforts of the Hon. A. P. German to keep the State in the ranks of the Democracy."

"I based my decision on a precedent established by Secretary Tracy in a case where a ship-building firm at a port on the Great Lakes was the lowest bidder for one of our naval vessels. Mr. Tracy made a decision then, but I have gone into the matter at some length. Mr. Don. M. Dickinson submitted to the department a brief to show why it would not be contrary to the agreement to award one of the new gunboats to the Detroit firm. Appended to the brief was a letter sent to the Senate by Mr. John W. Foster when Secretary of State, in response to a resolution calling for information about the agreement between Great Britain and this government. I have examined that letter, and a great deal of documentary evidence, and, finding nothing that would permit me to have a warship constructed at Detroit, I was obliged to so decide." spect to war-vessels on the Great Lakes,

Senator Butler is slow to tell how he stands on the fusion question, but here is a mighty strong hint that he opposes it so far as the electoral ticket is concerned. Your correspondent said to him: "What do you favor, You did not eay specifically in your interview of Thursday?" He replied: "I favor co-operation which

does not sacrifice any principle—that is, I am in favor of co-operation against gold-burs and not with gold-bugs." This is all that he would say. MOTT AND BUTLER. Dr. J. Mott appears, like W. A.

Dr. J. J. Mott appears, like W. A. Guthrie, to have joined the Populists. He speaks of himself as a Republican, but it is noticeable that all, or nearly all, his association is with Populists. To Senator Butler he is absolutely devoted, and his deep regard appears to be fully reciprocated. Major John C. Windsor's improvement

in health is said, by members of his family, to continue.

The shut-down of the faculty of Wake Forest College on the playing of foot-ball by the college team outside of the place has raised a breeze among some place has raised a breeze among some unruly students, it seems, the latter having said that if they could not play they would not enter the gymnasium. Two convicts were brought from Clenland county to-day; one to serve five years for assaulting a woman with a kulfe. There was strong evidence in his favor and strong evidence against him. But for the former he would have been given twenty years, or else been lynched, the Sheriff says.

A WATER FAMINE IMMINENT. A WATER PAMINE IMMINENT.

A water famine is imminent in some sections of the State. A newspaper gives as a reason for the strange rise, in spite of the drought, of water in certain streams, ponds, and marshes, that it is due to the sap, which has descended from

the trees.

A business-man was asked what per-centage of the farmers he thought were now in debt in this section. He said about one third; that they were paying now in debt in this section. He said about one third; that they were paying off their debts quite rapidly, and have made few new mortgages or other obligations. He says no western corn is being sold this year, but that this month considerable western meat has been sold, because some of the farmers either ate their meat-supply or else sold too much of it earlier in the year. Of course, there are some farmers who do not raise a supply of meat. Happily, these diminish in number yearly. The sorghum crop is a fine one, and is turning out well.

THE TORPEDO STATION.

Good progress is being made in the work of building the torpedo station at Fort Caswell, at the mouth of the Cape Fear river. It is built in one of the five angles of the fort, part of it nearly touching the officers' quarters, which in January, 1865, were burned. The whole place looked, until the new work began, as if time's hand had stopped in 1865. The ruins are extremely interesting. One of the magazines only was then destroyed. There is no attempt at restoration, of any part of the costly fort. The torpedocase mate is simply built amid the ruins.
